Privacy Notice for Children

The practice keeps records of your name, address, date of birth and details of any health problems as well as details of your dental treatment and details about your family. We keep this information so that we can provide you with the best dental care. Your personal information is kept very confidentially and securely.

We only use your personal information so we can give you the best dental care and for sending reminders to you.

We only pass your personal information to another dentist, doctor or hospital if you have a problem that needs their special skills and you need to go and see them. We will not give your information to anyone else unless the law allows us to or we have to provide it for legal reasons.

If you leave the practice, we will stop using your information, but will keep it confidentially and securely until you are 25 years old (or 26 years old if you were 17 when your last treatment ended), or for 15 years (NHS patient)/11 years (private patient) after the completion of treatment, whichever is longer.

We will then review if and when we can delete it. You can always ask for a copy of the information we hold for you, we can transfer it to another dentist or doctor at your request and you can ask us to stop using your personal information to send letters or contact you in other ways if you are no longer a patient at the practice.

When you reach 18 years of age the Privacy Notice about how we process your personal information will change to the adult version. This can be found on our website.

If you would like a copy of the information we hold about you or if you have any other enquiries it about such as to change an error in your information or to provide a copy of your information to somebody else please contact:

The Information Governance Lead - The Practice Manager.

Data Opt-Out Policy (England)

How the NHS and care services use your information

Angle House Ealing is one of many organisations working in the health and care system to improve care for patients and the public. Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care services, important information about you is collected in a patient record for that service. Collecting this information helps to ensure you get the best possible care and treatment. The information collected about you when you use these services can also be used and provided to other organisations for purposes beyond your individual care, for instance, to help with:

- Improving the quality and standards of care provided
- Research into the development of new treatments
- Preventing illness and diseases
- Monitoring safety
- Planning services

This may only take place when there is a clear legal basis to use this information. All these uses help to provide

better health and care for you, your family and future generations. Confidential patient information about your health and care is **only used** like this where allowed by law.

Most of the time, anonymised data is used for research and planning so that you cannot be identified, in which case your confidential patient information isn't needed.

You have a choice about whether you want your confidential patient information to be used in this way. If you are happy with this use of information, you do not need to do anything. If you choose to opt-out, your confidential patient information will still be used to support your individual care. To find out more or register your choice to opt-out, please visit www.nhs.uk/your-nhs-data-matters. On this web page, you will:

- See what is meant by confidential patient information
- Find examples of when confidential patient information is used for individual care and examples of when it is used for purposes beyond individual care
- Find out more about the benefits of sharing data
- Understand more about who uses the data
- Find out how your data is protected
- Be able to access the system to view, set or change your opt-out setting
- Find the contact telephone number if you want to know any more or to set/change your opt-out by phone
- See the situations where the opt-out will not apply

You can also find out more about how patient information is used at:

<https://www.hra.nhs.uk/information-about-patients/> (which covers health and care research); and <https://understandingpatientdata.org.uk/what-you-need-know> (which covers how and why patient information is used, the safeguards and how decisions are made)

You can change your mind about your choice at any time.

Data being used or shared for purposes beyond individual care does not include your data being shared with insurance companies or used for marketing purposes, and data would only be used in this way with your specific agreement.

NHS Health and care organisations must have systems and processes in place so they can be compliant with the national data opt-out and apply your choice to any confidential patient information they use or share for purposes beyond your individual care.

Our practice only uses your personal health data to provide individualised care to you and does not disclose your data for any other purposes. The national data opt-out does not apply to our usage of your data, and we are compliant with the policy.
